## HYDROGEN ASSOCIATION OF INDIA

It is a pleasure to inform you that fifth International Hydrogen & Fuel Cell Conference (IHFC) - 2016 is being held during December 11<sup>th</sup> - 13<sup>th</sup>, 2016 at Hyderabad Marriott Hotel & Convention Center, Hyderabad (INDIA). The conference is organized by Hydrogen Association of India (HAI) with support from International Association of Hydrogen Energy (IAHE), USA. The event focus will be on insight into the future of hydrogen technologies and their commercialization aspects. The conference will once again focus on various challenges & opportunities associated with hydrogen including production, storage, transportation, safety and application in IC Engines / Fuel Cells.

Hydrogen Association of India (HAI) events now the well-established platform for meeting of international experts, working in the whole value chain of hydrogen energy. In line with its traditions, IHFC - 2016 is once again aimed to bring together renowned researchers, policy makers, investors, academia, stakeholder communities and consumers in an endeavor to align their efforts for energy independence through hydrogen energy.

The aims and objectives of the Hydrogen Association of India are to conduct scientific activities which shall include the following:

- To promote, encourage and develop the growth of Hydrogen Energy and its applications in the country.
- To establish an active association of all those persons, bodies, institutions (private or public) and industries interested in promotion of Hydrogen Production, Storage, Transportation, Distribution and Dispensing related technologies in India.
- To disseminate information concerning the developments in Hydrogen Energy and its applications through publications, such as bulletins, reports, newsletters, journals, workshop and conference etc.
- To render advice (technical or otherwise) to government and commercial bodies on matters pertaining to Hydrogen Energy and its applications, when needed or requested.
